NEED OF SOME RELIEF
FROM SCREENMAKERS

A PRICE ON YOUR
PRIVATE TIME, MY
COMPANY IS HERE TO
HELP. I've been working
professionally as a

freelance video editor and screenwriter for years. In that time, I've worked on numerous projects and produced almost every aspect of the finished product. From screenwriting to video editing, you'll always find me putting the viewer first and asking how we can make the experience better. I take great pride in my work and strive to

make things better each and every day. If you'd like to get in touch with me to discuss your project or just talk about video editing, you can find me on: (NOTE: I work out of my house in a studio. I don't want to have my residence shared online without my knowledge so feel free to direct all messages to my email.)
----- Other

things ----- I'm the guy who has thrown out breadcrumbs and then suddenly found that he's following a trail of bread crumbs that led him right to his own front door. I'm the person who takes a topic or field of study and then throws out as many bread crumbs as I can in that particular area. I constantly write about current events,

news, TV, movies, books, music, art, and even my own work. I'm just a guy who loves to share and I hope you will find something of interest here. If you want to make a movie that will stand the test of time, then you need a safe haven. You need to find the movie that no one has tried. No matter what, once that has been accomplished,

then you are at the top of your game. No one will be able to touch you. It's not about writing a great script, it's not about directing the perfect scene, and it's not even about getting the perfect actors and cast. It's not about anything other than writing the best script you can. And, the perfect script is the one that does what no other script can

do
