Having a great deal of magical help from his elf friend, Gandalf the Grey, and much helpful advice from his good friend, the wise old Bilbo, Bilbo sets off on an adventure through the deadly mazes of the Lonely Mountain, but the love of his life, the beautiful and beguiling Elanor, holds a secret that could change Bilbo's fate and bring about his greatest adventure yet . The news they bring startles Bilbo and makes him eager to return to the company of Gandalf the Grey and his other friends. Gandalf explains that the group has set off on a dangerous journey to recover the Lonely Mountain's lost treasure. He explains that the Mountain of the Eagles, the largest and most difficult mountain in the West, is home to the orcs and goblins that have been trying to destroy his group. He tells Bilbo that Thorin's group, led by Thorin himself, is somewhere nearby, having 82157476af
